DETAILED ACTION

Status of claims

1. This is in response to applicant's amendment to after final office action filed 12/16/05, in which claims 1-17 have been deleted and claims 18-20 are pending.

After further search and thorough examination of the present application and in view of applicant amendment, Claims 18-20 are found to be in condition for allowance.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record (Maggenti) teaches a communication system (see figure 1) in which a first station (CD 202) initiates communication with at least a second station and provides an initial real-time media signal for transmission to the second station wherein the initial real-time media signal comprises an initial real-time media stream of a packet- based real-time media session between the first station and the second station (column 8, lines 11-26 and figures 7-10) a method comprising:

Maggenti discloses buffering (622 of figure 6) the initial real-time media signal until a transmission path exists to send the initial real-time media signal along its way toward the second station (column 36, lines 89-51 and figure 6) and sending the initial real-time media signal along its way toward the second station (column 36, lines 39-51 and figure 6).

On the other hand, the present application specifically teaches the PTT server receiving the initiating user's speech signal in a buffering the initiating' user's speech

signal in a PTT server buffer; while buffering the initiating user's switch signal, the PTT server working to establish a terminating RTP leg with a terminating mobile station; and in response to establishment of the terminating RTP leg with the terminating mobile station, the PTT server transmitting the initiating user's speech signal from the PTT server buffer via the terminating RTP leg to the terminating mobile station. These limitations, in conjunction with all other limitations, has not been disclosed, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tilahun B Gesesse whose telephone number is 571-272-7879. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on 571-272-7882.

The Central FAX Number will change to 571-273-8300. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now

located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies.
